Where international, state, and/or county boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.

1. A " " following a place name indicates that the place is also a false MCD; the false MCD name is not shown.

2. In 1990, the census of census population of ships at sea was allocated to census tracts with a "99" suffix. An anchor symbol appeared on the 1990 maps locating a census of ships at sea. These maps show a very small area symbolized as a census tract with the census tract number shown near the area.
